

Gabriel Anietie Udoh

Full-Stack Developer · AI Integration Engineer · Mobile Developer

Lagos, Nigeria · +234 705 297 1057 · younganiel@gmail.com · github.com/gabrielanie · linkedin.com/in/gabriel-udoh

PROFESSIONAL SUMMARY

Results-driven Full-Stack Software Developer with **6+ years of professional experience** building scalable, high-performance web and mobile applications across SaaS platforms, enterprise systems, and e-commerce. Proficient across the full stack — React, Next.js, Node.js, PHP/Laravel, React Native, and Flutter — with hands-on experience integrating AI services (Claude AI, OpenAI, Whisper) into production systems. Proven record of leading distributed engineering teams, delivering products from architecture through deployment, and mentoring junior developers. Available for full-time, contract, and remote engagements.

TECHNICAL SKILLS

Frontend	React.js, Next.js, TypeScript, JavaScript (ES6+), Vue.js, Tailwind CSS, shadcn/ui, Framer Motion, Redux Toolkit, React Query, SASS, Bootstrap
Backend	Node.js, Express.js, PHP, Laravel, PostgreSQL, MySQL, MongoDB, Firebase, Prisma, REST APIs, GraphQL, Redis, Socket.io, Zod
Mobile	React Native, Expo, TypeScript, React Navigation, Push Notifications, Geolocation, Offline Caching, Flutter, Dart
AI & Integrations	Claude AI (Anthropic), OpenAI API, Speech-to-Text (Whisper / Google Cloud), AI Prompt Engineering, Amadeus API, Paystack, Stripe, Mailchimp
DevOps & Tools	Git & GitHub, Docker, AWS, Azure, Vercel, GitHub Actions, Nginx, Vite, Figma, Radix UI, Formik / Yup
CMS & E-Commerce	WordPress, WooCommerce, Elementor, Headless CMS, SEO Optimisation, Performance Tuning

PROFESSIONAL EXPERIENCE

Fullstack Developer — Maintenance, Support & AI Integration

Jan 2026 – Present

Musenotes | Remote · Part-Time / Contract

- Maintain and evolve a live AI-powered audio/video transcription and content analysis platform, owning the full product lifecycle from backend optimisation and frontend delivery to AI integration and infrastructure management
- Deliver full-stack feature enhancements, performance improvements, and bug fixes across React.js and Node.js layers, reducing backlog and improving platform stability
- Manage CI/CD pipelines and cloud infrastructure updates, maintaining high platform availability and supporting scaling requirements
- Integrate and optimise third-party AI APIs, evaluating model performance improvements to enhance accuracy and reduce operational costs
- Produce and maintain technical documentation for infrastructure, APIs, and deployment processes to support knowledge transfer to the in-house engineering team

Senior Full Stack Developer

Oct 2024 – Jul 2025

A Venture Studio | Remote · London, UK

- Led simultaneous full-stack development of two flagship startup products at a London-based venture studio, taking ownership of architecture, engineering execution, and team coordination end-to-end
- Architected and shipped OnTheGo, a cross-platform React Native mobile app serving users across multiple African countries with real-time location services, push notifications, and offline caching — driving a 40% increase in user adoption
- Designed and built Node.js/Express REST APIs backed by MongoDB, powering real-time location-based data at scale
- Led a distributed team of 4 engineers, establishing code review standards, sprint cadences, and technical decision-making processes
- Delivered Rate'O, an anonymous workplace feedback platform built with Next.js 15, TypeScript, and TanStack Query, featuring internationalisation, role-based access, and a live analytics dashboard

Frontend Developer & Coding Instructor

2023 – 2024

Melodia Coding Academy | On-site · Lagos, Nigeria

- ▶ Held a dual role as a practising frontend developer and full-time coding instructor, building the academy's web presence while delivering structured, project-based curriculum for aspiring developers
- ▶ Developed and maintained responsive client web applications using React, Vue.js, and modern CSS frameworks for 10+ active clients
- ▶ Designed and delivered a comprehensive curriculum covering HTML/CSS, JavaScript, React, and Git workflows, successfully mentoring 30+ students
- ▶ Optimised frontend performance through code-splitting, lazy loading, and bundle optimisation, reducing average page render times by 30%

Freelance Web Developer & Digital Strategist

2018 – Present

Self-Employed | Remote · Nigeria & UK

- ▶ Delivered 20+ production websites and e-commerce platforms for SMEs across Nigeria and the UK, providing end-to-end technical and strategic digital services
- ▶ Integrated payment gateways (Paystack, Stripe) and third-party APIs, enabling secure online transactions and automated workflows for clients
- ▶ Provided digital strategy, SEO, and brand development alongside technical delivery, acting as both technical partner and digital advisor

Web Developer Intern

2020 – 2022

Firstlincoln Technology | On-site · Lagos, Nigeria

- ▶ Collaborated with senior engineers to build and maintain client-facing web applications with a focus on responsive design and frontend performance
- ▶ Implemented interfaces using HTML5, CSS3, JavaScript, and Bootstrap; assisted with PHP/Laravel backend development including authentication systems
- ▶ Optimised page-load performance, reducing average load times by 35% through caching and asset optimisation strategies

EDUCATION

Bachelor of Science — Information Technology

2019 – 2024

National Open University of Nigeria

Relevant Coursework: Networking & Security · Artificial Intelligence & Data Science · Software Engineering · Database Management Systems
